

Sheep farming in Denmark

Sheep farming in Denmark

2021

Sheep farming in Denmark

Many of the bigger herds

- no housing and lambing outdoor
- Graze seed grass, the last cut of grass in dairy herds and nature areas
- Solar panel fields ↑

Sheep farming in Denmark:

Health challenges

Voluntary programme:

Maedi

Footrot

Contagious ovine digital dermatitis (CODD) not observed yet....

Sheep farming in Denmark

Arkivillustration: Rasmus Sand Høyer,

Other challenges:

- Sheep have a bad reputation when it comes to Nature Preservation. The authorities prefer cattle and horses!
- Since 2012 the wolf is re-established in DK! After being absent for the last 200 years.
- Many hobby farmers, no money for development and no united effort to influence the political agenda
